Thanks for buying this product. To ensure you use the product safely and correctly, please read thoroughly this instruction before use.

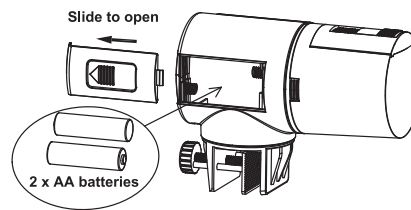

Please note that we are not responsible for any failure caused by misuse or improper maintenance.

**SAVE THIS INSTRUCTION FOR FUTURE USE.**

## Before Installation

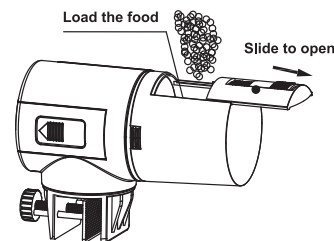

### 1. Install the batteries.

This fish feeder uses 2 x AA batteries (not included).

### 2. Load the food into the drum.

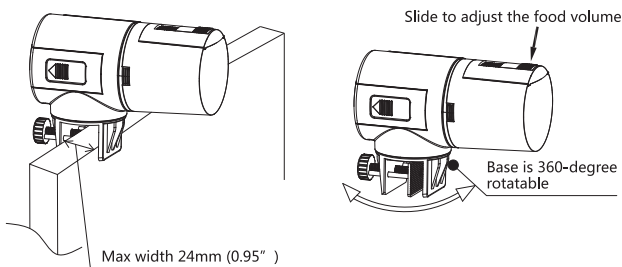

Slide the cover to the right and fill the food to the drum. The capacity of the drum is 200ml.

## Installation

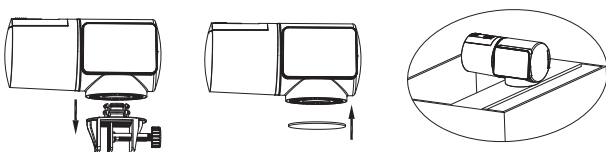

This feeder can work with almost all the aquariums in the market - rimless aquariums, aquariums with frames, or aquariums with lids.

- For **rimless aquariums and aquariums with frames**, follow the below instructions. The feeder's base allows for the width of maximum 24mm (0.95" ).

Note that the base is 360-degree rotatable to position the feeder at the desired place. Simply hold the feeder with one hand and the base with another hand, then twist to rotate.

- For **aquariums with lids**, take off the base and use the double-sided sticker to fix the feeder to the aquarium lid. Make sure the feeding opening face the opening of the aquarium.

## Operation

There are 4 buttons on the control panel for easy setting.

- 3 automatic timing buttons**, i.e. 8-hour / 12-hour / 24-hour.

Take 8-hour as an example. Press 8 and the green light above will flash to confirm the setting is done. After the pressing the feeding drum will rotate once for the first feeding. After 8 hours the feeder will rotate for another feeding. The feeding will be done every 8 hours.

The green light will flash every 5 seconds all the time so that the users know the working status of the feeder.

- 8 stands for feeding every 8 hours, which means 3 times a day.
- 12 stands for feeding every 12 hours, which means twice a day.
- 24 stands for feeding every 24 hours, which means once a day.

-**Manual button**. Press the button to feed the fish any time you want.
